Practicum Proposal

Describe specifically the planned experiences of the practicum. This experiences must include the following items:

- 1 - Preparing and delivering at least 3 class sections
- 2 - Office hours for the students in the course
- 3 - Selection and evaluation of student work
- 4 - Design, preparation, and evaluation of one examination
- 5 - A specific plan for meeting with the course instructor to receive feedback on performance.

Other items may be included at the discretion of the student, course instructor, and that student's faculty advisor

Practicum Report

Upon completion of the practicum, the student will file a report including an evaluation of performance on each of the proposed items, and a description of what the student gained from the practicum. The report must be approved and signed by the course instructor.

Practicum Enrollment

The student will enroll in BME 780 for credit.
